

CONVERD

Blox-Lite® is a paper based 100% opaque, coated two side (C2S) alternative to PVC block-out vinyl banner. It is ideally suited for window and hanging displays.

Blox-Lite® (opaque banner material)

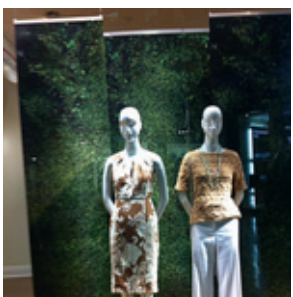

Blox-Lite® is . The product is a dimensionally stable, bright white composite media that is recyclable FSC® certified and printable two-sides. This heavyweight material is a sustainable alternative to non-recyclable block out PVC vinyl for hanging signage.

Blox-Lite® is moisture resistant and suitable for sewing, grommets and can even be assembled or fabricated with pole pockets using double-side tape.

Blox-Lite® Chrome is a 10 pt direct aluminum metalized variation of our proven Blox-Lite product family that was created to provide a stunning visual impact for traditional hanging signs and banners. This product is available coated one-side (C1S) or coated two-side (C2S) with a brushed chrome metallic print surface.

Blox-Lite® FR is a 14 pt flame-retardant banner material engineered to provide an extra margin of safety in crowded public environments where concerns over fire safety exist. Certified using test method NFPA 701, M1, ASTM E162 and E662, this product offers exceptional flame retardancy without compromising printability, brightness or whiteness.

Applications

- Hanging signage
- Banners
- Posters
- Front lit displays
- Window signage
- Indoor POP
- Trade show signage
- Retractable signs

Installation Options

- Grommets
- Double-side tape
- Velcro
- Suction cups
- Sewing

Handling Tip

To eliminate any possible curl caused by shipping the printed product in a tube, simply reverse roll the printed Blox-Lite® around the shipping tube or tube core and hold for a minute or two. The product is now ready for display.
